

POSTERS PRESENTED
APRIL 1, 1998 - MARCH 31, 1999

Target Neutron Skin Effect on Projectile Fragmentation, **R. Laforest**, 1998 Nuclear Chemistry Gordon Conference, Colby-Sawyer College, New London, New Hampshire (June 1998).

Giant Dipole Resonance in Excited ^{197}Au Nuclei, **E. Ramakrishnan**, 1998 Nuclear Chemistry Gordon Conference, Colby-Sawyer College, New London, New Hampshire (June 1998).

Isotopic Yields of Fragments From the Reactions of ^{20}Na , ^{20}Ne , $^{20}\text{F}+^{197}\text{Au}$ at $E_{\text{beam}}=32\text{ MeV/nucleon}$, **D.J. Rowland**, 1998 Nuclear Chemistry Gordon Conference, Colby-Sawyer College, New London, New Hampshire (June 1998).

Isotopic Yields of Fragments From the Reactions of ^{20}Na , ^{20}Ne , $^{20}\text{F}+^{197}\text{Au}$ at $E_{\text{beam}}=32\text{ MeV/nucleon}$, **D.J. Rowland**, CAARI '98 Conference at University of North Texas, Denton, Texas (November 1998).

Light Particle Probes of Dynamical Evolution of Multifragmentation Reactions, **J. Cibor**, 1998 Nuclear Chemistry Gordon Conference, Colby-Sawyer College, New London, New Hampshire (June 1998).

Cu $K\alpha$ Satellite Structure Excited by 10 MeV/u Ion Impact, **J.M. Blackadar**, Fifteenth International Conference on the Application of Accelerators in Research and Industry, Denton, Texas (November 1998).

Full Coverage of Linear Energy Transfer Values Between 1.7 and 63.2 MeV cm^2/mg Using Only Four Beams, **V. Horvat** and R.C. Rogers, Fifteenth International Conference on the Application of Accelerators in Research and Industry, Denton, Texas (November 1998).

Striving for Intense Beams From the Texas A&M K500 Cyclotron, **G.J. Kim**, 15th International Conference on Cyclotrons and their Applications, Caen, France (June 1998).
