**CYCLOTRON INSTITUTE**  
TEXAS A&M UNIVERSITY

In 1964, Texas Governor John B. Connally personally visited the Texas A&M University campus to deliver the good news to then-Texas A&M President James Earl Rudder '32 that a \$6 million "atom smasher" would be built at Texas A&M.

On December 4, 1967, Nobel Prize winners Glenn T. Seaborg and Willard F. Libby helped dedicate the Texas A&M Cyclotron Institute — three days after it had achieved its first external cyclotron-accelerated particle beam, thanks to a 400-ton, 2,000-kilowatt magnet whose power was equivalent to one-fifth of the output of the Texas A&M Power Plant.

Join us throughout 2017 as the Cyclotron Institute commemorates 50 years of beam with a series of celebratory activities set to culminate in a November 15-17 symposium dedicated to our past, present, and future of exploring the nuclear frontier.

1967 - 2017

# Second Circular

We are pleased to announce an international symposium celebrating 50 Years of Beam at the Cyclotron Institute at Texas A&M University. The symposium will be held **November 15-17, 2017** on the campus of Texas A&M University in College Station, Texas, USA.

## Program

The title of the symposium is *Exploring the Nuclear Frontier: 50 Years of Beam*. The scientific program will feature talks focusing on the research areas of current interest to the Cyclotron Institute:

- Nuclear Structure, Reactions, and the Equation of State
- Fundamental Symmetries
- High-Energy Nuclear Physics
- Applications of Cyclotron-Based Nuclear Science

In addition to the scientific program, we will have historical talks given by former Cyclotron Institute directors on Thursday and a celebration BBQ on Friday. Tours of the Cyclotron Institute will also be offered.

## Website

All information about the symposium, including the details concerning abstract submission and conference registration, can be found on the conference website:

<https://cyclotron.tamu.edu/50years>

## Important Dates

- August 15, 2017 — Abstracts Due
- November 15-17, 2017 — Technical Symposia

# Registration

There is no registration fee, but all participants are asked to [register](#) in advance. Abstracts should be submitted through the registration page.

# Venue

The symposium will be held in the Hawking Auditorium on the lower level of the Mitchell Institute for Fundamental Physics at Texas A&M University ([map](#)). Locations for ancillary activities will be announced later.

# Travel

College Station is served by Easterwood Airport (CLL), and connections are available to Houston's Bush Intercontinental Airport (IAH) and the Dallas/Fort Worth International Airport (DFW). From there, connections are available to all major cities worldwide.

You may also fly to Houston's Hobby airport (HOU) or the Austin-Bergstrom Airport (AUS), but you will need to arrange ground transportation to College Station.

A [shuttle](#) is available with service to the Houston and Austin airports but *not* Dallas/Fort Worth.

# Accommodations

The organizers have secured blocks of hotel rooms at discounted rates at a small number of local hotels. See the [website](#) for details.

College Station also has a large number of hotel rooms that can be booked directly on many major travel websites. A partial list of hotels is available on [Experience Bryan College Station](#).

# Visas

The United States has a [Visa Waiver Program](#) which allows citizens of certain countries to travel to the USA without a visa. Visitors from other countries will need to [obtain a visa](#).

If you need a letter of invitation, then please [email us](#).

# Committees

## *International Advisory Committee*

- Klaus Blaum (Max Planck Institute)
- Henry Clark (Texas A&M University)
- Charles Gale (McGill University)
- Brad Sherrill (Michigan State University/FRIB)
- Achim Schwenk (TU Darmstadt)

## *Local Organizing Committee*

- Greg Christian
- Cody Folden
- Rainer Fries
- Kris Hagel
- Jeremy Holt
- Yiu-Wing Lui
- Dan Melconian
- Grisha Rogachev

# Contact Us

Please contact [50YearsSupport@comp.tamu.edu](mailto:50YearsSupport@comp.tamu.edu) if you have any questions.

We look forward to seeing you November 15–17, 2017 in College Station!
