

Cyclotron Colloquium, Thursday August 9th, 2012, at 3:45 pm

Room MIST 102 at the Mitchell Institute

Refreshment will be served at 3:30 pm

*New Result from RIKEN RIBF*

Dr. H. Sakai  
RIKEN, Wako. Japan

Abstract:

Very recent experimental results from RI Beam Factory(RIBF) of RIKEN will be briefly presented based on the  $^{48}\text{Ca}$ -,  $^{124}\text{Xe}$ - and  $^{238}\text{U}$ -beam campaigns. Experiments on the IVSM search and tetra neutron search using the SHARAQ spectrometer will also be shown in some detail.
